What's New with Velocity

Simplified Distance to Coast Guidelines

Small Commercial Update

Velocity is excited to announce updated Distance to Coast (DTC) guidelines for Alabama, Florida, Mississippi, and Texas effective July 9, 2024.

We have simplified our DTC guidelines to make it easier to write business with Velocity. The new guidelines are:

- No Frame / Non-Combustible / Light Metal Frame construction within 1 mile of the coast in Alabama, Florida, Mississippi, and Texas
- No Frame / Non-Combustible / Light Metal Frame construction in Broward, Miami-Dade, and Palm Beach (Tri-county) counties, in Florida

Be sure to review our Product Guide, forms, and state specific Quick Reference Guides in the Velocity Knowledge Center, your resource center for product and system information, located within my.velocityrisk.com.

If you have any questions or need further clarification on these updated guidelines, please don't hesitate to give us a call. Our team is here to assist you. We will continue to work hard to be your carrier of choice for catastrophe property risks.
