## SOV Uploader Enhancements

We have added more new features to the SOV uploader based on your direct feedback. The Roof Cover and Roof Shape fields now convert into the quote from the excel file. We also added new tabs for Other Structures and Personal Property and a way to validate data that may not have come over correctly allowing you to edit directly in the system to ensure an accurate quote.

## See it in Action!

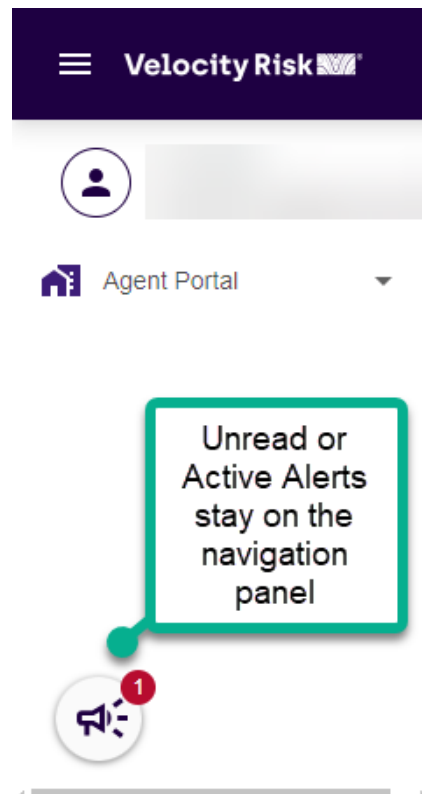

Upload your SOV, get immediate feedback, and create quotes quickly.

## NEW! Announcements Feature

We are excited to add a new Announcements Feature to our agent portal. Never miss an important update again. The Announcement Feature will provide short snapshots of important announcements with a link to the Knowledge Center where you can access the full details. Announcements will appear front and center when you log in and can either be minimized to view later or marked as read so it doesn't appear again.

We are confident you will find these new features help you to stay informed and to quote faster, easier, and more efficiently. If you have any questions or need further assistance, please don't hesitate to give us a call. Our team is here to assist you. Thank you for your continued partnership and trust in us.
