Avoid Tax Filing Errors: Use Correct Policy

We've identified a recurring issue with tax filings where the Policy's Carrier ID (e.g., VSI-000001-01) is being used instead of the Master Policy # (e.g., 2024-000001-01). This discrepancy creates reporting challenges during quarterly premium reconciliation. To ensure accurate filings and avoid discrepancies always use the Master Policy # when filing taxes.

We appreciate your attention to this detail. Correct reporting helps maintain smooth processes for everyone.
